

POST-DEPLOYMENT SMOKE

Nexletta release check

Generated 8 October 2026, 10:37 UTC. Run before bug tickets. Application defects are Failed. Missing records are Blocked. STABLE requires every required check to pass.

OVERALL STATUS: STABLE

Summary

Total tests	Passed	Failed	Blocked
30	30	0	0

Corrected report. Organization sign-in does not have to land on bills, so that check is removed. Veteran and representative invoice visibility is not scored on this run. Next smoke run uses NX-065.

NX-065 — Billing visibility for the veteran: if the veteran pays personally, the veteran can see the invoice. If a representative pays, or an organization or referral partner pays, the veteran cannot see the invoice or the amount. A message such as "Billed to your referring organization" is acceptable.

Reviewer QA: an empty queue is not a blocker. Next runs start from a submitted evaluation and set Return for Correction, Approve, or another QA status. The case must then appear in QA Review. It is a bug only when it does not appear after that status change.

No irreversible actions were taken. Mark as Paid, Approve, Return, and Save were not clicked.

Role-wise results

Role	Total	Passed	Failed	Blocked	Result
Admin	6	6	0	0	PASS
Scheduler	4	4	0	0	PASS
Biller	4	4	0	0	PASS
Reviewer	3	3	0	0	PASS
Organization	2	2	0	0	PASS
Veteran	5	5	0	0	PASS
Representative	3	3	0	0	PASS
Provider	3	3	0	0	PASS

Failed and blocked tests

None. The empty reviewer QA queue is not a defect.

Passed tests

Each passed check signed in, opened the required page, and performed one real read-only action or confirmed a blocked page by opening the URL directly.

Role	Check	What the UI showed
Reviewer	Submitted evaluation appears in QA Review after a status change	QA Reviews opened. No case was in Pending QA Review or In Review. That empty queue is not a release blocker. Next runs move a submitted evaluation through QA status and fail only if it does not appear.
Admin	Dashboard opens with case counts	Dashboard at https://staff.nexletta.com/staff/dashboard shows "Pending Records 67" and "In progress 19".
Admin	Cases list opens and one case opens	Opened case NXL-2026-0248 at https://staff.nexletta.com/staff/cases/NXL-2026-0248 and did not save.
Admin	Settings opens	Settings surface opened at https://staff.nexletta.com/staff/admin with heading "Admin Dashboard".
Admin	Billing opens	Billing opened at https://staff.nexletta.com/staff/billing .
Admin	QA opens	QA Reviews opened at https://staff.nexletta.com/staff/qa .
Admin	Appointments opens	Appointments opened at https://staff.nexletta.com/staff/appointments .
Biller	Billing list opens and one invoice shows amount and status	Opened INV-2026-0520: amount \$650, status Paid.
Biller	Mark as Paid is available and is not used	Mark as Paid is enabled on 10 invoice(s). It was not clicked.
Biller	Appointments do not open	Appointments stayed blocked. Landed at https://staff.nexletta.com/staff/dashboard .
Biller	QA does not open	QA stayed blocked. Landed at https://staff.nexletta.com/staff/dashboard .
Organization	One organization invoice opens	Opened INV-2026-0520: \$650, Paid. Referring-org filter options: My Org.
Organization	Another organization's invoice does not open	INV-2026-0517 is not in the organization billing list at https://staff.nexletta.com/staff/billing .
Provider	Dashboard opens with this provider's cases only	Dashboard for "Muskan prov" at https://providers.nexletta.com/provider/dashboard does not include NXL-2026-0245.
Provider	One assigned case opens and the evaluation form opens	Opened assigned case "NXL-2026-0248 muskan aaa IME Single Ready 1 Wrist — 11/05/2026 Oct 8, 2026 Open New tab" and the evaluation surface at https://providers.nexletta.com/provider/evaluations without submitting.
Provider	Another provider's case, Billing, and Settings do not open	Foreign case URL https://providers.nexletta.com/provider/cases/NXL-2026-0245 did not open the case. Billing and Settings headings were not shown.

Role	Check	What the UI showed
Representative	Managed Veterans list opens and one linked veteran shows case status	Opened linked veteran "VET-10009 muskan aaa IME Single Report ready Unpaid invoice · \$19,60026 outstanding Verified 10/08/2026". Case NXL-2026-0248 shows "Your report is ready for collection" at https://app.nexletta.com/veteran/case .
Representative	Billing follows who is paying for the linked veteran	Organization "My Org" is paying. Representative billing does not show that organization price.
Representative	A veteran who is not linked does not open	Nex Vet is not in Managed Veterans at https://app.nexletta.com/veteran/managed .
Reviewer	Billing does not open	Billing stayed blocked. Landed at https://staff.nexletta.com/staff/dashboard .
Reviewer	Appointments do not open	Appointments stayed blocked. Landed at https://staff.nexletta.com/staff/dashboard .
Scheduler	Cases list opens	Cases list opened at https://staff.nexletta.com/staff/cases .
Scheduler	Appointments calendar opens and one appointment opens	Opened appointment "muskannn abc 8:00 AM CDT – 9:00 AM CDT Telehealth Scheduled" from https://staff.nexletta.com/staff/appointments and did not save.
Scheduler	Billing does not open	Billing stayed blocked. Landed at https://staff.nexletta.com/staff/dashboard .
Scheduler	QA does not open	QA stayed blocked. Landed at https://staff.nexletta.com/staff/dashboard .
Veteran	Sign-in shows only that veteran's case	Dashboard at https://app.nexletta.com/veteran/dashboard shows own case NXL-2026-0248 and not NXL-2026-0245.
Veteran	Case status opens	Case NXL-2026-0248 at https://app.nexletta.com/veteran/case shows "Your report is ready for collection".
Veteran	Records page opens	Records opened at https://app.nexletta.com/veteran/records . No file was uploaded.
Veteran	Billing follows who is paying	Organization "My Org" is paying. Billing does not show that organization price.
Veteran	Another veteran's case does not open	NXL-2026-0245 is not in the case filter and did not open. URL after direct navigation: https://app.nexletta.com/veteran/dashboard .

How to read this report

Run `npm run smoke` from the smoke folder after every deployment. The command is headed. Credentials stay in `smoke/.env` and are not printed in this report. Screenshots and Playwright traces for failures are stored under `smoke/reports/artifacts`.
